Recovery Act Recipient Reporting on FederalReporting.gov

Grant and Loan Recipients

April 2010 Reporting Period
Outline of Presentation

- Basic Background on Recovery Act
- OMB Reporting Requirements
- Jobs Guidance
- FederalReporting.gov
- Available Resources
- Detailed Review of Reporting Template and Field by Field Guidance
On February 17, 2009, President Obama signed the *American Recovery and Reinvestment Act*, along with an Executive Order establishing the Economic Recovery Advisory Board.

**Main Purpose:** Stimulate the economy; create & retain jobs!

### Recovery Act Purpose

- Preserve and create jobs and promote economic recovery
- Assist those most impacted by the recession
- Spur technological advances in science and health via investment
- Generate long-term economic benefits via investment
- Stabilize state and local government budgets

### DOE Goals

- Promote energy efficiency
- Deploy renewable power
- Modernize the Grid
- Reduce oil consumption
- Restore America’s scientific leadership
- Reduce legacy environmental footprint
- Reduce greenhouse gas emissions

### Principles

- As quickly as possible
- Prudent management
Section 1512 of the American Reinvestment and Recovery Act Outlines Recipient Reporting Requirements

“Recipient reports required by Section 1512 of the Recovery Act will answer important questions, such as:

- Who is receiving Recovery Act dollars and in what amounts?
- What projects or activities are being funded with Recovery Act dollars?
- What is the completion status of such projects or activities and what impact have they had on job creation and retention?”

“When published on www.Recovery.gov, these reports will provide the public with an unprecedented level of transparency into how Federal dollars are being spent and will help drive accountability for the timely, prudent, and effective spending of recovery dollars.”

Source: OMB Memoranda M-09-21 dated June 29, 2009
OMB Reporting Requirements

• All Prime Grant and Loan Recipients whose award was signed by DOE on or before March 31, 2010 must file a report in FederalReporting.gov by April 10, 2010.

• Reporting continues quarterly and is cumulative with the exception of jobs.

• OMB reporting requirements through FederalReporting.gov do NOT exempt a recipient from DOE reporting requirements or any other reporting requirements. Questions concerning program specific reporting requirements should be directed to your contracting officer.
## April 2010 Reporting Timeline

<table>
<thead>
<tr>
<th>Date</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ongoing</td>
<td>Registration open for FederalReporting.gov. Early registration is encouraged.</td>
</tr>
<tr>
<td>April 1, 2010</td>
<td>Reporting Period Begins</td>
</tr>
<tr>
<td>April 10, 2010</td>
<td>Reporting Period Ends – No new reports can be entered after 11:59 PM PDT on this date.</td>
</tr>
<tr>
<td>April 11, 2010</td>
<td>Prime Recipient Review begins– Only corrections to existing reports can be made.</td>
</tr>
<tr>
<td>April 12, 2010</td>
<td>Prime Recipient Review ends– No updates may be made after 11:59 PM PDT on this date without DOE Reviewer action.</td>
</tr>
<tr>
<td>April 13, 2010</td>
<td>Federal review of data begins – Recipients may be contacted to answer questions about the reports and/or be asked to make corrections. Data can be corrected only if unlocked by Agencies.</td>
</tr>
<tr>
<td>April 29, 2010</td>
<td>Agencies must complete review status and comments. No updates may be made after 11:59 PM PDT on this date.</td>
</tr>
</tbody>
</table>
As a Prime Recipient what do I need to report?

- Data related to Prime Recipient
- Data related to Sub-Recipients
  - Primes may choose to delegate some reporting to Sub-Recipients
  - **Exception:** Primes must report Jobs for Sub-Recipients
- Data related to Vendors

**Sub-Recipient** - A non-federal organization spending Federal awards received from another organization to carry out a Federal program – not a program beneficiary.

**Vendor** - A dealer, distributor, merchant, or other seller providing goods or services that are required of the conduct of a Recovery program.

Sub-Recipient vs. Vendor Example: A State is the Prime Recipient. Weatherization agencies such as Community Action Agencies are sub-recipient. The company that the sub-recipient buys insulation from or is used to install the insulation is a vendor.
Jobs Guidance

- Actual direct Jobs reported as FTEs. Direct jobs are defined as those directly funded by the Recovery Act.

- Jobs calculations are no longer cumulative and are based on the reporting quarter. An example is included in this presentation.

- For cost share or cooperative agreements, calculate jobs based only on the portion of funds attributed to the Recovery Act.

Note: This guidance is subject to change in future quarters as OMB issues new or clarifying guidance. We will notify all of DOE’s ARRA recipients of any changes.

OMB Definition: Full-Time Equivalent (FTE)

The estimate of the number of jobs required by the Recovery Act should be expressed as “full-time equivalents” (FTE), which is calculated as total hours worked in jobs created or retained divided by the number of hours in a full-time schedule, as defined by the recipient. The FTE estimates must be reported cumulatively each calendar quarter.
Calculating Jobs – Grant or Loan Recipient Example

Formula
Total Number of Hours Worked and Funded by Recovery Act within Reporting Quarter = NUMBER OF JOBS
Quarterly Hours in a Full-Time Schedule

Step 1:
Calculate Quarterly Hours in a Full-Time Schedule
(the same denominator should be used for all subsequent quarters)

40 hours in a full-time work week * 52 weeks per year = 2080 hours per year

2080/ 4 quarters per year = 520 quarterly hours
Note: For industries with a different standard work week, use the above formula substituting your standard work week hours.

Step 2:
Collect the total number of hours worked and funded within the quarter. For this example, assume the hours worked in the quarter were:

<table>
<thead>
<tr>
<th>Employee</th>
<th>Hours Worked Previous Reporting Quarter</th>
<th>Hours Worked Current Reporting Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prime Employee 1</td>
<td>250</td>
<td>520</td>
</tr>
<tr>
<td>Prime Employee 2</td>
<td>0</td>
<td>260</td>
</tr>
<tr>
<td>Sub Employee A</td>
<td>170</td>
<td>100</td>
</tr>
<tr>
<td>Sub Employee B</td>
<td>300</td>
<td>520</td>
</tr>
<tr>
<td>Total</td>
<td>720</td>
<td>1400</td>
</tr>
</tbody>
</table>

Step 3:
Calculate the FTEs Created or Retained for the Quarter using the above formula

Calculation:
1400 (hours worked)/ 520 (hours in a full time schedule) = **2.7 Jobs**
Calculating Jobs – Cooperative Agreement/Cost Share Example

Continue from previous example. Assume $100 million in total investment of which $50 million is provided by DOE and $50 million is private investment.

Step 4:
Calculate DOE share of award.

DOE Investment/Total Investment = $50M/$100M = 50%

Step 5:
Calculate the FTEs Created or Retained for the Quarter

Multiply the FTEs Created or Retained for the Quarter (calculated in Step 3) by the DOE Share calculated in Step 4.

2.7 Jobs * 50% = 1.35 Jobs Created
Registering on FederalReporting.Gov

- Registration includes personal Recipient and Organization information.
  - Recipients must have a DUNS number and be registered in the Central Contractor Registration (CCR) database. Please check your company information in CCR to confirm it is accurate.
  - Registration can take place at any time, and early registration is encouraged.
- More specific information and screen shots can be found at http://www.energy.gov/recovery/ARRA_Reporting_Requirements.htm

Tip: Once you’ve registered, the FederalReporting PIN (FRPIN) necessary to log into FederalReporting.gov will be sent to the company representative listed as the contact in CCR which may be a different person than the registrant.
Choose One of Three Methods to Report through FederalReporting.gov

- **Excel spreadsheet**
  - Spreadsheet is available on www.FederalReporting.gov
  - Form can be downloaded, completed by the recipient, and then uploaded
  - Validation tool available

- **Custom software system extract in XML**
  - Recipients with sufficient technical experience may choose to submit a properly formatted Extensible Markup Language (XML) file for their report submission
  - XML file can be downloaded, completed by the recipient, and then uploaded

- **Online Form**
  - Form allows recipient to complete reporting online through www.FederalReporting.gov

Download the Excel and XML Schema templates from the FederalReporting.gov homepage. Please make sure the report is submitted using the most recent version of the template.
When is FederalReporting.gov Reporting Complete?

Recipients must report quarterly until ALL of the below criteria are met:

1. The Award period has ended (Period of Performance)
2. All Recovery funds have been received through draw-down, reimbursement or invoice
3. The project is complete
4. Recipient has submitted a report in FederalReporting.gov that meets all of the following conditions
   a. Shows all funds have been received (“Total Federal Amount ARRA Funds Received/Invoiced”)
   b. Shows all funds have been expended (“Total Federal Amount of ARRA Expenditure”)
   c. The “Project Status” field is marked “Fully Completed”
   d. The “Final Report” field is marked “Y”

Note: If a recipient has completed work and invoiced or drawn down all funds by the end of the reporting quarter and the Period of Performance end date is in the future, the Recipient may mark their report as final only if there is no expectation of new future Recovery Act work on this award.
DOE Resources for Recipients

What Can Be Found on the DOE Website?
http://www.energy.gov/recovery/ARRA_Reporting_Requirements.htm

- **Federal Reporting Recipient Information**: spreadsheet with awardee name, award/contract number, total awarded/obligation, project value/description, DUNS number, CFDA code, TAS (Program Source), and other data elements

Jobs: Reporting Requirements

- DOE seeks to understand the full impact of Recovery Act projects on employment on a monthly basis.

- Recipients report jobs from the non-federal fund cost-share component of Recovery Act projects (Section 5A of Attachment B - Award Agreement).

- Recipients report data on jobs created at Recipient and sub-Recipient levels.

- Recipients report on the creation of several categories of jobs.

- Recipient may report creation of indirect jobs.

Jobs: Discussions

- Report for a given month the total number of hours of work for each labor category funded by Federal and non-Federal sources
  - “Full-Time Equivalents” is calculated.
  - The Federally funded portion of “Full-Time Equivalents” is calculated.

- Cumulative values capturing the job creation of the entire project are calculated from the monthly data.

- Optionally, report the number of “indirect” hours that are funded by Federal and non-Federal sources.
Jobs: Indirect Hours

- Reporting Indirect Hours is strongly encouraged.

- Example of Indirect Hours:
  - Clerical/administrative staff
  - Institutional review board staff members
  - Department administrators
  - Central service providers
  - Subcontractors
  - Suppliers
Risks: Reporting Requirements

- Recipient updates the set of Risk monthly (SGIG Agreement Terms and Conditions Clause 32-B).

- These updates include new risks, deleted risks, or changes to:
  - likelihood of occurrence.
  - cost/schedule impact.
  - risk consequence.
  - handling strategy.
## Risks: Snapshot of Spreadsheet

### Risk Data

<table>
<thead>
<tr>
<th>Risk Identifier (by Project)</th>
<th>Risk Title</th>
<th>Risk Description</th>
<th>Likelihood of Occurrence (High/Medium/Low)</th>
<th>Cost/Schedule Impact (High/Medium/Low)</th>
<th>Risk Consequence</th>
<th>Handling Strategy (Avoid, Mitigate, Accept)</th>
<th>Risk Mitigation</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>AEC1</td>
<td>Resource Scheduling</td>
<td>Due to the potential level of activity generated by Recovery Act funding in the project area, qualified engineering contractors may be in high demand over the life of the project.</td>
<td>Medium</td>
<td>Medium</td>
<td>If Acme were unable to find qualified contractors it would delay the ramp up time for the job.</td>
<td>Mitigate</td>
<td>Create up to 10 additional positions for highly technical skilled workers.</td>
<td></td>
</tr>
<tr>
<td>AEC2</td>
<td>Material Availability</td>
<td>Lead time for acquiring capacity and automated design and communication equipment may be increased because of demand.</td>
<td>Medium</td>
<td>High</td>
<td>If Acme doesn't get the material needed it will delay implementation especially at the beginning of the project.</td>
<td>Mitigate</td>
<td>Acme’s requirements are well within the capacity of suppliers and Acme has developed a large supply chain with strategic relationships and alliances with key vendors.</td>
<td></td>
</tr>
<tr>
<td>AEC3</td>
<td>Weather</td>
<td>Major weather-related disruptions to existing infrastructure could pull resources from project-related activities.</td>
<td>Medium</td>
<td>Low</td>
<td>If Acme wasn’t prepared for the occasional light rain or significant interruption, however, that is not the case.</td>
<td>Mitigate</td>
<td>Acme works with other regional providers in a consortium to provide emergency water supply services, thus reducing or removing the impact of any weather-related outages. Plus, most of our project work is taking place in areas with commercial utilities.</td>
<td></td>
</tr>
<tr>
<td>AEC4</td>
<td>Regulatory</td>
<td>Multiple jurisdictions have regulatory authority over elements of the project, however expectations are that the regulatory response will be positive.</td>
<td>Low</td>
<td>Medium</td>
<td>If Acme is unable to get regulatory approval for part of the project it will not affect the whole project and funds will be shifted.</td>
<td>Mitigate</td>
<td>Sub-recipients are responsible for negotiating with independent regulatory groups in local communities and they have assured us that the approvals are within hand. Acme is prepared to provide support as needed.</td>
<td></td>
</tr>

SIPRIS: Purpose

- Provide a secure, collaborative workspace for grant recipients and Federal managers to share status on Smart Grid Investment Grants

- Store and retrieve data from recipients on Smart Grid Investment Grant projects to include:
  - Project management information (i.e., project baseline, performance data)
  - Reporting-related information (jobs created/retained by projects, project level risk management)

- Support Project Value Management System
SIPRIS: Login and Access Control

**Login**
- Users will access from smartgrid.gov
- Users will register, sign rules of behavior, and be issued a username and password
- Helpdesk will answer any questions about login
  - 202-251-4181
  - siprishelpdesk@hq.doe.gov
  - Lost Password.
  - Web site access issues.

**Access Control**
- TPOs
  - Write access to those projects they oversee
  - Read access to all projects
- Recipients
  - Will only see their project
  - Some will have read-only access; others read-write
SIPRIS: Roles

- Recipient
  - Update actuals, jobs, risks, narrative reports, supporting documentation

- TPOs (and support staff)
  - Enter baseline
  - Update reports and analysis

- Help Desk
  - Resolve issues
  - Does not perform data entry
SIPRIS: Data Entry Screens

- Project Information
- Baseline
- Actuals
- Jobs
- Risks

Information for Smart Grid Project Teams

Through this Web site, Smart Grid Program project teams can learn more about reporting requirements, locate project development resources, and access tools to manage project data. The United States Department of Energy (DOE) is investing approximately $4 billion to encourage smart grid deployment and demonstration through the Smart Grid Investment Grant and Smart Grid Demonstration programs. To ensure fiscal responsibility and maximize results, DOE is working closely with project teams throughout their performance periods and gathering periodic data to monitor progress and results.

Investment Grant Program
- Advanced Metering Infrastructure
- Customer Systems
- Electric Distribution Systems
- Electric Transmission Systems
- Equipment Manufacturing
- Integrated and Crosscutting Systems

Demonstration Projects
- Energy Storage Demonstration Projects
- Regional Demonstration Projects
